# JEAN SHINODA BOLEN

*Urgent Message from Mother*

FRI AUGUST 14TH 7-9PM DONATION \$20

Please join us in this rare opportunity for a community conversation with internationally renowned author and speaker Jean Shinoda Bolen. Jean will discuss her most recent book, travels and work on behalf of our planet. "I continue to take my 'assignment' as a message carrier to heart. I believe that critical-mass

grassroots activism transforms consciousness which in turn changes history. I believe that humanity is at a crossroads and what women (and men who partner with women) do in the next few decades will determine the fate of life on this beautiful, abundant planet."

*Jean is the author of many books, including **The Millionth Circle, Goddesses in Everywoman, Gods in Everyman and Crossing To Avalon.** She is clinical professor of psychiatry at UCSF, a Jungian analyst and an activist. In Jean Bolen's poetic polemic, **Urgent Message from Mother**, she explores the transformative power of the sacred feminine and how a new wave of spiritual activism is heralding a grassroots peace movement world wide. Bolen elucidates Rupert Sheldrake's **theory of morphic resonance**, which describes how societies and even species can undergo rapid evolution when they reach a tipping point.
